Upcoming deadlines

Internal calls

6 x PhD Studentships with the INEOS Oxbridge Doctoral Initiative on Antimicrobial Resistance

- Aim: To nurture a diverse cohort of outstanding young scientists to deal with antimicrobial resistance challenges. Three studentships will be awarded in Oxford (DPhil) and three will be awarded in Cambridge (PhD), and students will be encouraged to train in both Universities.
- Deadline: 30 June 2022.
- More details [here](#).

Cambridge Africa ALBORADA Research Fund 2022

- Aim: Applications are invited from pairs of researchers (post-doctoral level and above) from the University of Cambridge or an affiliated institution and sub-Saharan African institutions, across all disciplines, to initiate and/or strengthen research collaborations. Grants between £1,000 and £20,000.
- Deadline: 5 September 2022
- More details [here](#). Contact alboradafund@cambridge-africa.cam.ac.uk for more information.

RAEng Research Fellowships 2022/23

- Aim: Annual call from the Royal Academy of Engineering (RAEng) for applications to the Research Fellowship and Engineering for Development Research Fellowship (EDRF) scheme. Fellowship duration: 5 years.
- Target: ECRs who have been awarded their PhD no more than four years prior to the funder's submission deadline.
- Deadline: 30 June 2022 (internal), 20 September 2022 (external)
- More details [here](#). Contact researchstrategy@admin.cam.ac.uk for more information.

C2D3 Early Career Researcher Seed Fund 2022

- Aim: C2D3 will award 5x £2000 Seed Funding to Early Career Researchers. Applications should focus on cross-disciplinary data science or AI.
- Deadline: 27 June 2022
- More details [here](#).

External calls

UKRI: MRC Impact Prize

- Aim: The MRC Impact Prize launched in 2022 to recognise individuals or teams who have made outstanding contributions in medical research. The prize rewards impacts in the following

- Deadline: 29 July 2022
- Funder: Medical Research Council (MRC)
- More details [here](#).

UKRI: Partnerships to address crop pest and diseases in UK agriculture and horticulture

- Aim: Get funding for projects to test approaches and develop strategies to improve the understanding, management and control of crop pests and diseases that present a significant threat to crop production in the UK.
- Deadline: 3 August 2022
- Funder: Biotechnology and Biological Sciences Research Council (BBSRC)
- More details [here](#).

UKRI: Partner with researchers in Canada on antimicrobial resistance (AMR)

- Aim: Apply for funding to establish new partnerships or develop pre-existing collaborations with researchers in Canada on a project relating to combating antimicrobial resistance (AMR).
- Deadline: 6 September 2022
- Funder: Biotechnology and Biological Sciences Research Council (BBSRC)
- More details [here](#).

Visit the [CID website](#) for more funding calls.

Courses, Conferences and Workshops

Open Science and Sustainable Software for Data-driven Discovery

- Aim: This in-person one-day workshop will explore the topics of reproducible data science, ethical data science, collaborative data science, The Turing Way, trustworthy AI, and transparency.
- Dates: Monday 18 July 2022, 9.15am to 5.30pm
- Location: Aurora Innovation Centre - British Antarctic Survey, High Cross, Madingley Road, Cambridge, CB3 0ET.
- More details [here](#).

Visit the [CID website](#) for more conferences and workshops.
